

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## ANNUAL MEETING OF THE AMERICAN PRISON ASSOCIATION

---

A summary of the proceedings of the recent annual meeting of the American Prison Association, it is anticipated, may be found in the next number of this Journal. It is expected also that there and in succeeding numbers various committee reports and addresses heard at the meeting of the Association will be published.

## MONOGRAPH SUPPLEMENT NO. 2

---

The second in the series of Criminal Science Monographs—supplements to this Journal—is now coming from the press of Little, Brown & Co., Boston. It is entitled “Studies in Forensic Psychiatry.” The author is Dr. Bernard Glueck, who until recently was a member of the staff of the Government Hospital for the Insane at Washington. On August first he assumed the directorship of the Psychopathic Laboratory in Sing Sing Prison—a laboratory that represents the most forward recent step in American criminology.
